Program aims

The Graduate Diploma of Teaching aims to graduate students who demonstrate:

- the knowledge, skills, practices and values inherent in the Australian Professional Standards for Teachers (as representative of the professional standards applicable to teachers' work in most global contexts)
- the qualities and skills required of a USQ graduate (see USQ's Qualities of a Graduate Policy)
- the attributes of an Education graduate
- high levels of personal and professional literacies
- awareness, understanding and positive orientation towards redressing the educational disadvantages experienced by many students of minority backgrounds.

Admission requirements

Australian citizens and permanent residents who are currently residing overseas are eligible to apply for this program.

Students should note that this program **does not** lead to eligibility for registration through the Queensland College of Teachers. All intending students are advised to check the eligibility requirements that apply to their local jurisdictions should they intend to seek teacher registration, qualified teacher status, or equivalent.

A minimum of a recognised three-year bachelor degree (or equivalent) in a discipline other than education is required.

All applicants must show how their prior studies meet these requirements by submitting a completed Teaching Areas form with their application.

Domestic and International Applicants from a non-English speaking background are required to satisfy English language requirements.

Other program requirements

The major program requirements are the satisfactory completion of 8 specified units and 75 days of approved professional experience.

A 30-hour virtual induction program, compulsory for all students regardless of location, is held prior to commencing formal studies in the first semester of enrolment. For the Semester 1 intake each year this induction program is held in February. For the Semester 2 intake each year the equivalent induction program is held in late June/early July.
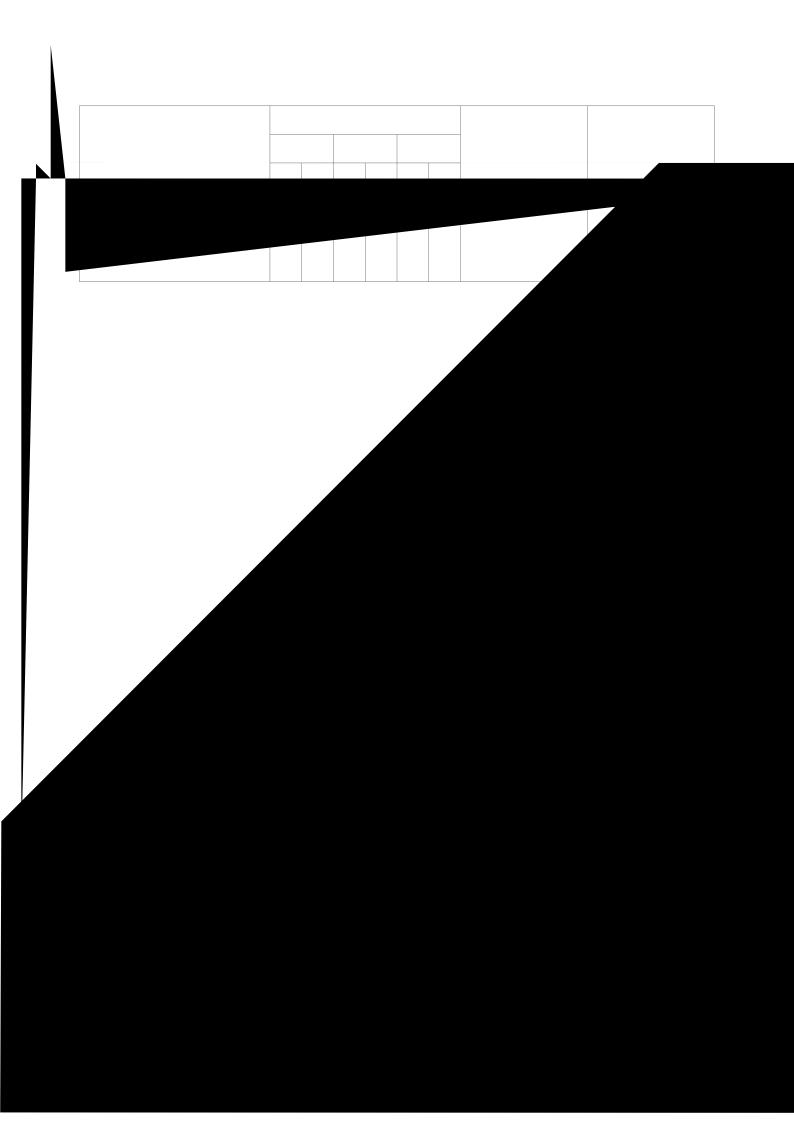

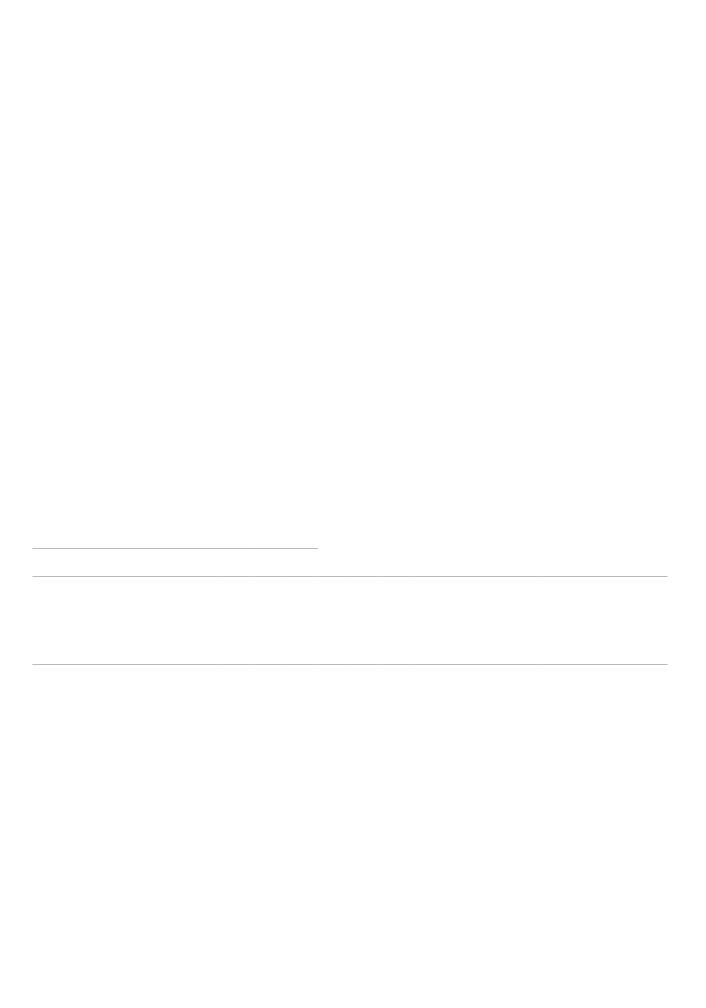

Credit

There is no credit available for courses completed in the degree that formed the basis for the student's admission to the program, but students who have completed degrees or diplomas in addition to the degree that formed the basis of their admission to the program may apply for any credit that may be applicable from that source.

Students may seek credit from courses on the basis of documented prior study at University level or equivalent qualifications and experience. Such applications will be considered on their merits in relation to the extent to which the documentation supplied by the student demonstrates a clear match with the objectives of the course for which the credit is sought. A maximum of four units of credit may be allowable.

Students who have documented evidence of satisfactory w

Note:

Note: minimum enrolment numbers apply to all courses. Should enrolments not meet the minimum number required, students may be transferred to a different mode or offering and advised of this change prior to semester start.
