Program aims

The Accelerated Entry Pathway Program (AEPP) aims to enable school leavers to develop the skills, knowledge and attributes needed to successfully transition from high school to university study. The program provides students with the opportunity to develop the academic literacies required to locate, interpret, analyse and critically evaluate a wide range of information, including quantitative data, and to construct and support their own ideas and arguments. Students will investigate issues relevant to the context of higher education, engage in career development and planning and undertake tasks related to self-management, including goal setting, time management and planning. As learning will focus on participation in practical, authentic activities relevant to beginning university study, students will gain confidence in their abilities to manage their study. This program will appeal to Year 12 leavers who wish to enhance their readiness to transition into undergraduate programs.

Program objectives

Upon successful completion of the program, students will be able to:

- (1) Apply academic literacy and numeracy knowledge, skills and attitudes required for successful transition into tertiary study.
- (2) Use self-management competencies required to participate effectively in an academic community.
- (3) Apply communicative and collaborative competencies required to participate effectively in an academic community.

Australian Qualifications Framework

The Australian Qualifications Framework (AQF) is a single national, comprehensive system of qualifications offered by higher education institutions (including universities), vocational education and training institutions and secondary schools. Each AQF qualification has a set of descriptors which define the type and complexity of knowledge, skills and application of knowledge and skills that a graduate who has been awarded that qualification has attained, and the typical volume of learning associated with that qualification type.

This program is at AQF Qualification Level 04. Graduates at this level will have theoretical and practical knowledge and skills for specialised and/or skilled work and/or further learning.

The full set of levels criteria and qualification type descriptors can be found by visiting www.aqf.edu.au.

Admission requirements

T

While successful completion of the compulsory core components of the AEPP will allow students to apply for entry into specified USQ undergraduate programs, AEPP courses cannot be used to gain credit towards an undergraduate program.
