## Professional accreditation

The Master of Information Systems program is accredited at professional level by the [Australian Computer Society](#).

USQ is registered with the [Project Management Institute](#) (PMI)® as a Global Registered Education Provider (R.E.P.). A study of project management at USQ earns professional development units towards certification with PMI including towards the Project Management Professional (PMP)®.

PMI, PMP and Project Management Professional (PMP) are registered marks of the Project Management Institute, Inc.

## Program aims

The Master of Information Systems is a vocationally and academically oriented program which allows graduates from programs other than computing to gain skills and knowledge in key areas of computing which relate to their needs and the needs of their profession or industry. It aims to produce graduates who are managers in IT departments. The Master of Project Management aims to produce graduates who have the appropriate skills and knowledge to be capable of managing small, medium and large-sized projects as either a senior team leader, a project manager or project director.

## Program objectives

The Master of Information Systems aims to produce graduates who are able to:

- acquire specific knowledge and skills in information technology which are relevant to their disciplines and careers
- understand a broad range of topics in information technology
- design, manage and develop software systems in an effective manner
- lead discussions relating to the computing aspects of their workplace

## Program fees

### Domestic full fee paying place

Domestic full fee paying places are funded depending on the courses that are taken.

[Course Fee Finder](#).
